**IMPORTANT NOTE:** Rows can be added to the tables in the following sections by going to the rightmost cell in the bottom row of the table and hitting tab. Hitting return in a given row will make the row wider, creating more room to type or write.

**Section B. Local Water Quality Information**

Information to help complete this section can be found in the instructions.

1. Does the MS4 discharge to 303(d) listed waters or is it in a TMDL watershed?

Yes (complete the table below)     No     Not Yet Determined

(Put an X in the 'Classification' cell to indicate if the MS4 discharges to a waterbody on the 303(d) list and / or if it is in a TMDL watershed.)

Impaired Waters Name (from 303 (d) list and/or TMDL)	Pollutant(s) of Concern (from 303 (d) list and/or TMDL)	Classification	
		303 (d)	TMDL

2. Have you received notification from the Department that you are subject to the special conditions in Part III.B. of the permit?

Yes  
 No

3. Have all necessary changes been made to the Stormwater Management Program (SWMP) to ensure compliance with Part III.B. of the MS4 permit for discharges to 303(d) or TMDL waters?

Yes  
 No (explain below)

Explanation:

No changes required. Does not discharge to TMDL Watershed.

**Section C. Partnership Information**

Information to help complete this section can be found in the instructions.

1. Does your MS4 work with partners? \_\_\_ Yes (complete table below) X No (Proceed to Section D)

**List MS4 Partners with Legally Binding Agreements or Contracts in Place**

**List MS4 Partners with Planned Legally Binding Agreements or Contracts**

**List MS4 Partners with Other Agreements in Place**

**Orange County Soil and Water Conservation District and Orange County Water Authority  
NYSDEC Grant for MS4**

**Section D. Geographic Areas Addressed by Stormwater Management Program (SWMP)**

Information to help complete this section can be found in the instructions.

1. Does your SWMP cover all jurisdictional (automatic and additionally designated) areas within the MS4, as required by 40 CFR 122.32(a)? x Yes \_\_\_ No (Explain below)

Explain:

SWMP covers all areas within the jurisdictional boundaries of the Town.

**Section E. Funding and Resource Allocation**  
Information to help complete this section can be found in the instructions.

1. Are adequate resources (funding mechanism, equipment, staff, etc.) planned or in place to fully implement your SWMP no later than January 8, 2008?  Yes  No (explain below)

Explain:

2. If the MS4 is receiving funding through the municipal budget, a grant, or other source, briefly explain below: what are the sources, estimated amounts, and frequency of funding for the MS4?

Explain: All funding for MS4 compliance is from the municipal budget.

3. If the MS4 is not receiving funding, briefly explain below: plans the MS4 has for obtaining future funding?

Explain:  
N/A

**Section F. Compliance Certification**

**Compliance Assessment** - For each of the minimum control measures, indicate below if your program has made steady progress toward full implementation *and* has achieved all measurable goals scheduled to be completed **during this reporting year**. Refer to the NOI and prior Annual Reports for information about measurable goals scheduled for this reporting year.

<p>The Town of New Windsor has implemented a policy as well as a local ordinance which requires the establishment of drainage district for post construction stormwater management. The establishment of drainage districts allows the Town to undertake post construction stormwater management including operation and maintenance of all best management practices installed within the Town. Cost associated with operation and maintenance are then born by the parcels within the subdivision. Individual on site best management practices implemented for site plans are addressed by the property owner through enforceable map notes.</p>	<p>Multiple drainage districts have been established to assure post construction modern drain maintenance of stormwater management facilities. Stormwater districts have enable the Town to recoup costs required to perform long term operation and maintenance. The Town’s DPW, as well as Recreation Personnel, assist in long term operation of stormwater best management practices implemented.</p>

<p>The Town of New Windsor stormwater management ordinance require SWPPPs for all projects which disturb greater than one acre of land. 100% of the SWPPPs are reviewed and evaluated by Town Engineer for compliance with State requirements. SWPPPs are commented on and required to be modified per Town comments. Notice of intents is required to be submitted prior to the issuance of building permits. Periodic field reviews are undertaken for SWPPPs compliance.</p>	<p>100% of projects which disturb greater than one acre are required to provide SWPPP plans which are reviewed by representatives of the Town’s engineering office.</p>

<p>The Town of New Windsor requires the establishment of drainage districts for long term operation and maintenance of best management practices implemented.</p>	<p>100% of construction sites are provided with long term post construction stormwater management. Prior to issuance of final certificate of occupancy sites are field reviewed under the Town’s stormwater management ordinances for compliance. As-built plans for all stormwater best management practices are required to be submitted to the Town for use.</p>
<p>Costs associated with operation and maintenance of detention pond facilities are borne by the lots in the parent parcel through an annual tax assessment. This annual tax assessment assures that funds are available for operation and maintenance for best management practices implemented.</p>

<p>As stated above implementation of drainage districts allows for the Town to take over operation and maintenance of stormwater management facilities. Costs associated with long term operation and maintenance are assessed back to parcels created from the original subdivision through an annual tax assessment. As the Town becomes the agency maintaining and operating the stormwater management practices little enforcement or violations are anticipated.</p>	<p>The town of New Windsor has initiated enforcement actions against a large residential development due to stormwater issues. Several stop work orders and orders to remedy were issued. Town personnel have worked with nysdec personnel on several sites which had significant issues.</p>
